As a part of Home Science department club activity, the Fashion Designing and Garment Construction students performed an activity of making Table Mat on 08.09. 2017.The procedure to make Table Mat is as follows.

TABLE MAT

Tablemats are used to protect the surface of a table, against heat, water and moisture. They can be used both in homes and restaurants. As tablemats are primarily used to protect the table, they tend to be thicker, which help in insulating the table from heat, and water-

resistant so that any spill will not seep through and stain the table. Tablemats can also be used as a decorative piece.

Required material:

Non-woven sheet, acrylic colours, vegetables, scissors

Procedure:

- ❖ Measure the table size and cut the nonwoven sheet for table mat.
- ❖ And cut 6 small pieces for saucer mats.
- ❖ Then by using vegetables and acrylic colour, print the design on mat.
- ❖ For printing, cut the vegetables like onion, green chilies, carrot,..
- ❖ And dip it into the paint and print on the mat.
- ❖ Let it dry for 24 hrs.

TABLE MAT – 2017

Mother Teresa Women's University, Department of Home science-Textiles and Clothing students performed an activity on Draping Techniques on 11 January, 2018. Fashion draping is an important part of fashion design. Draping is a key skill which allows apparel designers to understand what creates a great fit and how to achieve it. If a garment sample fits poorly, a designer who is familiar with how darts and seams give shape to garments can spot what is creating the fit issue and advise the factory how to correct the problem. Students show their uniqueness in draping chunni on a mannequin.

Students of Home Science Department of Foods and Nutrition, Mother Teresa Women's Research and Extension Centre, Coimbatore performed an activity on 6th March, 2018. prepared two recipes (Rasagula and Boiled Groundnut Snack) as a part of their club activity. Rasagula was prepared by curdling milk and setting it to round shapes. They were then kept soaked in thread stage sugar syrup for 3 hrs. Groundnut snack was prepared by cooking the deshelled groundnut for 15 mins at more than 100° C. Students enjoyed the tasty snacks.
