

Mother Teresa Women's University, Kodaikanal

INTERNATIONAL RELATIONS CELL

Objectives

- Professors from various abroad universities are invited regularly to deliver special lecture to our students and to interact with our faculty members, to work on joint research and publications and to plan about conducting joint conferences, seminars, workshops and webinars.
- to sign MoU with foreign universities
- to provide information to students about various foreign fellowship, scholarship and internship through what'sapp group.

Overview

IR cell dedicated to formulate and implement proposals for creating opportunities for international exchange of students as well as academic staff with high quality institutions and to discover better means of collaboration with international institutions. In the process, it builds international collaboration by signing various MoU's with reputed foreign universities and invites renowned Researchers/Professors from the MoU's signed institutions to deliver and share the knowledge of expertise to the students and faculty members regularly through Seminars , international conferences, Joint research program, publications and live interactive sessions etc thus helps in creating a world of opportunities for the students and scholars by facilitating research partnerships which have intellectual value and impact in the field of research and academics globally. More than any material incentive, there is a spirit of team-work, the enthusiasm of being a part of an institute body and an insight into the day-to-day world, which the members of the International Relations Cell will always cherish and preserve.

The IR Cell tirelessly working towards enriching current system of the academics into a world of opportunities and strives to promote international understanding and global awareness among the students thus making the students nurtured to be the renowned leaders of the future.
