Vice Chancellor's Message

Quality education is not a matter of chance. It is carefully and consciously cultivated. It can turn to a reality when a University establishes Centres of Excellence and envisions a University as a space to promote a community of scholars, thinkers and leaders. Education in its true sense is an ecosystem that helps students follow their natural curiosity and unravel their own unique career paths. Education should give wings to their ideas and embolden them to start independent successful ventures. It can be achieved when programmes are made research intensive, underpinned by cutting edge innovation and social relevance. In a constantly changing world, the benefits of education are amongst the only few constants. Education envisioned as a transformative journey a journey of inquiry, learning and maximizing human potential is bound to have positive implications for the world's most pressing problems. Hence, I am delighted to know that the University magazine 2016- 17 Issue- 2 is ready for publication. Apart from strengthening the teaching-learning process, research and extension programmes, special focus on extra-curricular, sports and other similar activities to foster global competencies among the students is our priority. I congratulate the editorial team for the hard work and dedication they have invested in realizing this goal, and wish all success in future endeavors.

Dr. G. Valli
Vice Chancellor

Registrar's Message

Only education empowers the society to grow in real sense by overcoming poverty, ignorance and lack of esteem. It is creditable that Mother Teresa Women's University has shaped a contemporary system to make it conceivable for staff and students to appraise their skills and talent in numerous areas like arts, social sciences and Sciences because of rapid evolving developments in modern era. Anyone can notice that our university has been fairly effective in sustaining equilibrium amid contemporary leanings in teaching and its ancient civilizations. The university has highly qualified faculty in their respective fields of expertise. A large number of national and international conferences, seminars and workshops are organized by the university. Such events provide a variety of experiences to the students and inculcate skills such as leadership and team spirit which are helpful in their career. Our faculty members have been able to publish good quality research work in high impact factor journals of repute. There is an active interaction between faculty and students in the campus. The learning experiences in the campus pave a strong path for enhancement of overall development of the learners. We have been taking every possible measure to bring the youth under one roof that can provide them modern education to counter challenges ahead. We believe in the development of students in such a way that ensures admirable future for them. I am delighted to know that the University magazine 2016- 17 Issue- 2 is ready for publication. I take this opportunity to congratulate the editorial board for bring out this News Flash as per schedule, which in itself is an achievement considering the effort and time required.

Dr. N.Kala
Registrar
